Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Receipt is acknowledged of the response filed on February 17, 2009, which has been entered in the file.

Double Patenting

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 1, 5-12, 16-26, 28-49, 51-66, 68-83, 85 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-78, 80-86 of copending Application No. 10/674800 in view of Johnson (US 5924080).

1. 1-78 and 80-86 of copending application No. 10/674800 teaches a method of authorizing electronic processing of a corporate check received at a merchant location, the method comprising receiving an electronic information about a check from a subscribing merchant, determining whether the electronic information about the check includes an indicator that indicates the presence of an auxiliary on-us field on a magnetic ink character recognition (MICR) associated with the check wherein the presence of the auxiliary on-us field denotes that the check is a corporate check, determining whether the subscribing merchant is allowed to process corporate checks electronically based on the merchant's status.
2. However, the application No. 10/674800 fairly suggest that the generating a first type receipt and a second type receipt accordingly.
3. Johnson teaches a method for printing a receipt with rebate information if the transaction qualifies (see figs. 1-2; col. 5, lines 20-26).

It would have been obvious to one of ordinary skill in the art at the time the invention was made to incorporate the teachings of Johnson to the teachings of the application No. 10/674800 in order to provide convenience means for customer wherein the customer can instantly notify the transaction status by printing out different type of receipt according to transaction types.

This is a provisional obviousness-type double patenting rejection.

Response to Arguments

3. Applicant's arguments with respect to claims 1, 5-12, 16-26, 28-49, 51-66, 68-83, 85 have been considered but are moot in view of the new ground(s) of rejection.
